Data Security

Objectives:

At the end of this episode, I will be able to:

1. Identify data key data security concepts.

Exam Objective: *3.1 - Summarize data security concepts.*

Description: In this episode, the viewer will identify concepts surrounding data security such as data states like data-in-transit and data-at-rest, data storage locations, life cycle management as well as BIOS/UEFI passwords.

- Encryption paradigms
  - Data at rest
  - Data in transit
- Retention policies
- Data storage
  - Physical location storage
  - Off-site vs. on-site
- UEFI/BIOS passwords
- Bootloader passwords
- Business impact
  - Data value prioritization
  - Life-cycle management
  - Cost of security vs. risk and/or replacement
